

# Dedicated Insurance Company for Yachts

Crewsure Yachts was founded in 2012 with the intention of providing benefits to crew meeting the requirements of MLC 2006. They realised the need for an independent company dedicated to listening and working with the many and various maritime interests involved with the employment of seafarers. The company started up specifically to develop and model insurance products for seafarers and offer a bespoke “no fault” insurance policy, which provides a benefit to crew similar to the manner in which employers provide insurance to shore side employees as a standard contractual entitlement.

*“I intend to see Crewsure working harmoniously with the maritime industry as we strive to deliver a composite insurance product complementary to P&I Insurance, which helps to deliver the security and benefits that seafarers deserve.” - Robert Johnston, Chairman of Crewsure*

## Who is your clientele?

Our clientele are widespread from some of the largest ship owners in the world, through concessionaires and including yacht managers. We adopt a bespoke approach to the provision of benefits. “We don’t tell you what you can have, we ask you what you would like”.

## What services do you offer?

We provide tailor made benefits to suit the particular needs of the employers of crew. We offer yacht crew and guest benefits insurance which has been designed in line with the Maritime Labour Convention 2006 and the ITF Collective Bargaining Agreement. This insurance product includes Medical Expenses and Repatriation, Personal accident, Death in Service, Personal Effects, and Crew Replacement. What’s important to us is that seafarers receive the same care and concern, the same benefits, and the same access to medical treatments as those who work ashore.

## What is covered in the insurance?

The insurance covers medical expenses and repatriation, and guests and crew cover for necessary treatment due to illness or accidents. We will also pay for repatriation expenses if required. We cover accidental permanent disability and paralysis due to illness for officers, crew and for temporary staff and guests, and for death within one year as a result of an accident. In the event that a crew member has to be replaced due to injury or illness, we will also pay the expenses incurred for recruiting and sending a replacement.

Crewsure is committed to the welfare of your seafarers and their families. [Request a quote online today.](#)
